

Bluegrass GIS - Technical Services

Bluegrass GIS, Inc. offers GIS application development, design, technical support and implementation solutions on the following GIS products:

- ESRI ArcGIS (ArcGIS Desktop, ArcGIS Server, ArcSDE, ArcPad, Engine, and ArcObjects)
- ESRI ArcObjects, ArcInfo AML, and ArcView 3.x Avenue application development
- ESRI ArcPad and ArcPad Application Builder
- ESRI ArcGIS Engine
- ESRI ArcView 3.x and Avenue

Bluegrass GIS - ESRI Business Partner & Authorized Consultant

Since 1997, Bluegrass GIS, Inc. has been an ESRI Business Partner and Authorized Consultant specializing in the design, implementation, and support of GIS systems using the entire suite of ESRI software products.

Bluegrass GIS, Inc. specializes in the implementation of ArcGIS solutions. Our expertise lies in the migration of existing GIS systems to ArcGIS and the design and implementation of new ArcGIS based systems.

Bluegrass GIS offers the following GIS implementation services:

- ArcGIS Geodatabase Design, UML Modeling, Data Conversion, and Data Migration from Coverages, Shapefiles, Map Libraries, SDE 3.x Databases, and ArcStorm Databases to Personal Geodatabases and ArcSDE Oracle or Microsoft SQL Server DBMS-based Geodatabases
- ArcGIS Implementation, Technical Support, Administration, and Training
- ArcSDE Implementation and Administration
- Custom ArcGIS Application Development Using ArcObjects and Visual Studio.NET
- Migration of Legacy Workstation ArcInfo 7.x AML & ArcView 3.x Avenue Applications to ArcGIS Using ArcObjects and Visual Studio.NET
- ArcPad Customization and Development
